QUITTING CARNEGIE.

Non-Union Men Desert the Homestead Works.

OVER A HUNDRED ARE OUT.

The Locked-Out Men Jubilant Over the Present State of Affairs and Are Hopeful of Victory-The Duquesne Rioters in Court-The Present Wage Dispute Between the Manufacturers and the Amalgamated Association Almost Set-

HOMESTEAD, Pa., Aug. 9.-The nonanion men are deserting the Carnegie steel works by wholesale. They are coming out singly, in pairs and in groups. Since Saturday evening considerably over a hundred men have deserted and have been received with open arms by the locked-out men, who are in ecstacies of delight at the new turn in affairs.

In consequence, they are now more confident than ever that it will be only a short time until the company will give in and they will be taken back by their former employers and their organization

recognized. One of the many men who deserted and put in an appearance at Amalgamated association headquarters, gave the name of James Harvey, residence on Oxford street, Philadelphia, He was employed by Thomas Bainbrick, 34 Sev-enth street, Philadelphia, and in conpany with a party of machinists and skilled workmen, who were all informed that the Homestead strike was a thing of the past, they left for Pittsburg over the Baltimore and Ohio railroad. At Baltimore they were joined by another party, making in all 187 skilled men.

When Harvey reached the Homestead mill office he was told he would be paid \$2.50 per day and be boarded free of cost. Sunday morning a lot of the men got together and determined to leave the first opportunity they could get. Harvey says a majority of the skilled men now in the mill will leave just as soon as they can earn enough money to take them home. The Hungarians and Italians, he says, will stay as long as the company feeds them. He says that every man in his party was deceived as to the situation at Homestead or they

to the situation at Homestead or they would not have gone into the mill.

Harvey says he is a graduate of the University of Pennsylvania and is not accustomed to bunking or eating with Italians and negroes. He says that when he applied for his money yesterday morning the clerks told him that the strikers would ponnee upon him and give him a beating as soon as he was outside the gate. Harvey says that if the men in the mill could be given to understand that they would not suffer at the hands of the strikers the mill would very soon close down for want of Settlement.

Hanny of Deputy Yonng, who was not then present, and that therefore the court should not free them. He agreed to the remainder being let go on bail. Squire Reilly finally held Ursie, Essler, Bukie, Bennett, Kennedy, Hogan, Nolan, Haas and Coates for court, and fixed bail at \$1,000. Snyder and McLean were released on parole to appear for a further hearing. All of the men got bail except Ursie, who went to jail.

WAGE SCALE CONFERENCE.

The Present Dispute May Soon Reach a Settlement. men. He says the mill is a haven of rest for the most disreputable looking and blear-eyed bunis he ever saw.

The deserters from the little army of imprisoned workmen were provided with transportation to their homes, the majority of them being sent to Balti-more and Philadelphia. By 8 o'clock last night all who left the works during the day had been started on their homoward journey.

Chairman Crawford, of the advisory committee, said that over 150 men had come from the mill to Amalgamated headquarters during the day. "We have the names of 146 of them," said Mr. Crawford, "and we have it that fully that many took their departure by boat. It is no exaggeration to say that over 400 have left the company's employ since Saturday. They represented the more intelligent class of workmen secured by the company. Such a stainpede of the men who came here to tako our places naturally encourages us, and we feel that wo had the fight about as good as won.

"Superintendent Potter's statement that thirty old employes returned to work yesterday is untrue. We have made a careful canvass this evening, and can not discover a single desertion from our ranks during the past three days. I learned yesterday evening that some of the furnaces charged by the new men the latter part of last week caved in yesterday, owing to improver handling, and that several serious breaks had occurred in the machine

The fact that the Duquesne strikers returned to work yesterday will not have the least bearing on the situation here, for if the men now in Homestead continue coming out the company will soon find its game blocked and will be only to glad to get the old men back."

Lieutenant Colonel James B. Streator was unanimously re-elected to his position in the Tenth regiment yesterday evening, his term having expired. This is a complete vindication of his course in the Private lams affair by the latter's comrades. When the news reached this side of the river, the three regiments gave three hearty cheers for joy. Iams, who is here, was greatly chagrined.

THE DUQUESNE RIOTERS.

They Are Given a Hearing and Their Bail Fixed at \$1,000 Each.

PITTSBURG, Aug. 9.—The Duquesne rioters had a hearing before Alderman Reilly yesterday afternoon at 3 o'clock. Quite a crowd of Duquesne workmen were present to hear the case. Mr. E. Y. Breck appeared for the commonwealth and Messrs. W. S. Brennan and J. R. McQuaide for the defense. O. P. Griffith, a coal and iron policeman at the Duquesna works, and the Informant the Duquesne works, and the Informant in these cases, was the first witness and testified that he had seen the crowd about the gate and heard them threaten the men who tried to enter the mill,

Many of the men had clubs.

William Milslagle, the master mechanic of the Duquesne mills, sworn, said he had come to the mill at 6:30 and was stopped by five men who dragged

nim away from the mills and told him that if he went in he would wish he had not. Hugh Boyce, a carpenter at the works, was stopped by a man, but went in despite the threats that were made against him.

John Walters, a watchman, testified that the crowd did not bother him, but he saw them surround other men and prevent them from entering the mill. He saw many of the men with clubs and said that Bennett, Baker and Ursie were

antong the number.

John Foley, another watchman, testified that the crowd stopped men, among them Mr. Hallgren, and that they continued to do so until the militia came at 12 o'clock. He recognized Snyder and

McLean.
Alex Morrison, a water tender at the works, testified that he saw the crowd when he got off the car but did not know any of them. When he tried to get in he was given three minutes to go home, and upon refusing was grabbed by some men. He was struck by fists and clubs and considerably dazed. After that he remembered little. He heard the men using abusive language.

Mr. McQuaide tried to get witness to eay that the men in the crowd were not Duquesne workmen, but was unsuccess-

David Hanna, a deputy sheriff, the next witness called, saw the crowd stop men, among them Mr. Hugh Boyce. He said they called the men who tried to get in black sheep, and cursed the deputies as court house bums. Somebody proposed cleaning out the mill, but he succeeded in getting the men not to do so. He recognized Hogan, Essler and Snyder.

and Snyder.

Emil Halgren, the chief draughtsman at the Duquesne mill, testified that he was stopped and forced to go back home. The men had clubs and told him he would get hurt if he tried to get in, and that those who had gone in would get a good trouncing when they came out. Tim Olden, a clerk at the works, was also not permitted to go to work. He was grabbed and forced back. Did not know any of the men.

With this the prosecution closed its case. Attorney Brennan, for the defense, suggested that Snyder and McLean should be let go as they had not been in the crowd, but only on the steps of the hotel near by, and that the remainder be admitted to bail in a less sum for a court trial.

sum for a court trial.

Mr. Breck understood that Synder and McLean were arrested on the testi-

Settlement.

PITTSBURG, Aug. 9.—When the conference committee of the Iron Manufacturers and the Amalgamated association meet this afternoon, it is probable that the latter will have considerable power to settle the present wage dis-

It is learned on good authority that the workers' representatives will have the privilege of accepting a 10 per cent. reduction on the finishers' scale, but on puddling they are to consider no proposition for a reduction.

The finishers include the rollers, heaters and the roughers and catchers who are among the best paid in the Amalgamated association. Notwithstanding the fact that the workers' committee will have power to accept a reduction, it is anticipated that they will make a stiff fight. Day by day, as the association holds out, an occasional firm signs its scale. Should the Mahoning and Shenango valley manufacturers sign shortly, as the Amalgamated people confidently expect, the action would have

great bearing on the fight in Pittsburg. Should it be found imperative to accept the cut of 10 per cent, on finishing, or a greater reduction, it might cause trouble in the ranks of the Amalgamated association. There would be some danger of a disruption as some of the finishers, including the roughers and catchers, have been talking for several years of quitting the association. The roughers and catchers contend that they do not get a big enough percentage of the wages. A general reduction in the finishing department would affect them.

NO COMPROMISE.

Iron Hall Affairs Must be Settled in the Courts.

Indianapolis Aug. 9.—The application for a receiver for the Iron Hall will be heard Wednesday, all efforts to compromise having come to naught. The executive committee says its report exonerates Somerby. The latter is in Philadelphia. He will be back here Wednesday morning.

A. E. Stockwell, attorney for Somerby's Philadelphia bank where much of the Iron Hall's money is deposited, is here. He says Somerby has only \$5,000 of stock in the bank, and that it is solvent, as shown by two investigations since the Iron Hall case was filed in

Snpreme Justice Somerby, of the Or der of the Iron Hall, has issued a call for a session of the supreme setting of the order in this city next Thursday for the purpose of investigating the affairs of the order, especially the charges made against the supreme justice.

Can Not Recover.

JEFFERSOVILLE, Ind., Aug. 9 .- Miss Minnie Pangburn, who was run over by Charles Lang's team at the old settlers meeting on Thursday, is dying.

University President Dead.

TORONTO, Aug. 9.—Sir Daniel Wilson, president of the Toronto university, died early Sunday morning after a somewhat protracted illness.

CHOLERA RAYAGES.

Thousands Dying Daily in Russia.

SPREADING INTO OTHER PLACES.

The Dread Disease Causes a Riot in a Persian City-Troops Called Out to Suppress the Disturbance-Other Dispatches from Over the Ocean.

ST. PETERSBURG, Aug. 9.-The official list of the deaths from cholera were published yesterday. The number of victims up to Aug. 1, is given as 23,919. The lists, however, are admitted to be incomplete, and the most conservative estimate places the number at 25,000.

The cholera returns for all Russia for Aug. 3 and 4 shows a total of 6,741 newcsses and 3,496 deaths. A circular issued by the minister of the interior calls upon all Russians, male and female, who have studied medicine abroad to place themselves at the disposal of the authorities to combat cholera.

Appalling reports have been received of ravage of the cholera in the governments of Saratoff and Samara. It is officially reported that the deaths number not less than 3,000 daily. The ignorant multitude in many places resist. norant multitude in many places resist all sanitary precautions and attack the doctors and others engaged in attempt-

ing to alleviate the disease.

The authorities of Nijni-Novogorod, distribute boiled water to the people on account of the prevalence of the cholera and mix 10 per cent. of wine with the water in order to induce them to drink it. In Moscow nine new cases of cholera and four deaths were reported on Saturday and ten new cases and seven deaths on Sunday. The Grand Duke Sergius, governor of Moscow, has ordered severe penalties to be inflicted for the violation of sanitary regulations.

A dispatch from Astrabad, a city of Persia, whose pestilential atmosphere has gained for it the ominous name of "City of the Plague," says that the mollahs, or priests, whose influence with the populace is very powerful, have preached that the outbreak of cholera is due to the sale of alcoholic liquors. Their language excited the populace to frenzy. Mobs gathered in the vicinity of the mosques and determined to take summary steps to abolish the liquor traffic. Raids were forthwith made upon the dram shops, which were plundered.

The mob destroyed the goods of a

number of Armenian traders, who are Russian subjects. The Russian consul, fearing that trouble would grow and that he might be attacked, telegraphed to St. Petersburg for assistance. The government at once gave orders to the dispatch of twenty-five mounted cossacks, which have arrived at Astrabed, where they are guarding the consulate. The city is situated on a small stream that flows in Astrabad bay, which opens into the Caspian sea, and a Russian gunboat has ascended this stream and is now anchored off Astrabad.

The Russian legation at Teheran, the capital of Persia, was informed of the work of the mob and De Buzeow, the Russian minister, has demanded compensation for the riotous acts of the populace. The Shah of Persia, who is making a tour of the provinces, has been informed of the outbreak of cholera in Teheran, and he will immediately return to that city.

Repulsed by Rebeis.

London, Aug. 9.—A dispatch to The Times from Tangier, dated Sunday, says: Fifteen hundred of the sultan's troops, with two field pieces and 500 tribesmen, advanced this afternoon to the Anghera hills, where they were repulsed by the rebels. They then retreated to within three miles of Tangier. A dotachment of cavalry which attempted to charge the rebels was also repulsed. The whole force retreated to camp in the evening, having lost fifteen killed and wounded.

Mrs. Rose Laid to Rest.

LONDON, Aug. 9.-Mrs. Rose, one of the first women to speak in the United States in favor of the abolition of slavery, was buried in Highgate cemetery yesterday. In the United States she was associated with Lucretia Mott, Abbio Kelly, John G. Whittier and Wendell Phillips in the anti-slavery agitation. Several times during her abolition speeches she narrowly escaped being tarred and feathered. She was eightythree years of age.

California Fruit in London.

LONDON, Aug. 9.—The sale of California fruit brought to England by the steamer Majestic, the first consignment of such fruit to be shipped to this country, was concluded yesterday. Bartlett pears sold for from 7s 3d to 7s 6d per box. Crawford peaches brought from 5s 9d to 6s 9d per box.

Everybody Saved. .

LONDON, Aug. 9.—Two torpedo boats attached to the British blue squadron, while maneuvering near Portsmouth yesterday, came into collision. One of them was so badly damaged that she sank a few minutes after the accident. The other boat rescued everybody from the sinking vessel.

Rebel Heads for the Sultan. TANGIER, Aug. 9.—The sultan's troops brought here three prisoners captured yesterday in an engagement with the rebels. The heads of three rebels who were slain in battle were sent to the sultan. The prisoners will be beheaded.

Califsion of Trains.

HUNTINGTON, Ind., Aug. 9.—Yesterday at Kingland, the Chicago and Erie light train collided with another train demolishing the caboose. A brakeman had three ribs broken. David B. Blackburn was severely injured about the head, and Detective J. A. McCarthy had an ankle hurt.

FIERCE FACTIONAL FIGHT.

A Sensational Affair That Culminates in Murder.

CLARKSVILLE, Ind., Aug. 9.—An extremely sensational affair, Aminating in murder, occurred at a point six miles below New Albany Sunday afternoon. It was a factional fight, with nearly all the participants belonging in New Albany, Fdward and William Biel, of New Albany, and Louis Biel, a cousin, of Louisville, went to a fish-fry. James Soergel, of New Albany, with his wife and other parties, attended a fish-fry on the opposite side of the river at the same

Two years ago trouble was engendered between the Bicls and Soergels, growing out of a cattle trade, and the parties frequently appeared in court as complainants or defendants. Both parties knew of each other's presence, and during the day Soergel crossed to the Kentucky shore, accompanied by Peleg Whitten, Charles Bazil and two other men, and were joined by Charles Cavanaugh. It was not long until they collided with the Biels, and, as if moved by a common inpulse, the Biels entered a skiff and rowed to the middle of the river, where they waited for their oppo-

Soergel followed in close pursuit, accompanied by Ed Lee, Charles Wigley, and by Bazil. Whitten and Cavanaugh. The two skiffs came together in the river, and the parties fought with oars and fists until Edward Biel was knocked overboard and drowned. Biel might have escaped but he was struck over the head after falling into the water. The fight continued until both sides were utterly exhausted and helpless from blows received, and was witnessed by several scores of people, who were unable to interfere.

A revolver was brought into play by Whitten, but, after firing one shot, he threw the weapon overboard. The body of Biel was not recovered. Soergel was arrested upon coming ashore, and Cavanaugh was also run down. Both Kentucky and Indiana claim jurisdiction, and there is likely to be a legal dispute as to which state can rightfully try the cases. Spectators describe the fight as one of the bloodiest on record, all of the participants being more or less injured.

MYSTERIOUS DEATH.

A Well Kuown Detective Believed to Have Heen l'oisoned.

NEW ALBANY, Ind., Aug. 9 .- News reached here from English of the mysterious death of James L. Jones last Sunday, without any previous illness. Mr. Jones was a detective of much local repute, and has been the cause of the prosecution of local toughs, who feared him more than they did all the county officials.

The general supposition is that he has been poisoned by some of his victims who now have cases in court, where he was a principal and damaging witness. The plea has been advanced by some that death was the result of heart dis-

ease, but the deceased never complained himself capable of fulfilling the most arduous and dangerous tasks which he

had a reputation for performing.

The most plausible theory is that Mr. Jones has been poisoned. The I. O. O. F., of which he was a highly honored member, ordered a post-mortem examination to ascertain the cause of death.

The stomach and heart are now said to be in possession of a Louisville chemist, who will report upon the analysis. Meantime certain suspects are being carefully watched.

NO EFFECT WITH THEM.

Rustlers Ignoring the President's Proclamation.

CHEYENNE, Wy., Aug. 9.—Dispatches received from the north are to the effect that copies of the proclamation of the president calling on armed men to disperse, have been shot into wherever posted. This is for the most part the work of "rustler" sympathizers.

Nearly all of the men to whom the proclamation was directed, including especially the niurdevers of Deputy United States Marshal Wellman, are no longer seen in the settlement. They are supposed to be in hiding or to have left the country. The dozen special officers sent from here to arrest the leading outlaws remain in Buffalo. They are advised that in searching the country they would be ambushed.

The political leaders of the rustler district are organizing the People's party, and will place in the field a state ticket headed by Joseph Hurt, a sheep grower, defeated for the gubernatorial nomination in the Democratic nominating convention last week.

. Tested the Powder.

SHOALS, Ind., Aug. 9.—Enoch Ledrow, a wealthy farmer, residing twelve miles south of this city, was using a can of powder blasting rock in a well. The can was in a barn near by. His elevenyear-old son had begged for a charge of the powder to plow up a stump, but was refused. Determined to test the quality of the powder, he took some of it from the can and sprinkling it on top, touched it off with a match. A terrific explosion followed. The boy was fatally injured and the barn burned to the ground. The barn was filled with hay and grain, the yield of this summer's harvest, all of which was burned. The loss will reach nearly \$3,000.

Prisoners Escape.

CEDARTOWN, Ga., Aug. 9.—Seven prisoners escaped from jail here Saturday night by sawing the grating of the windows and knocking the sheriff down with one of the bars when he came to feed them. Two of the fugitives have been captured, but the rest are still at large.

Two Children Hurned to Death. WALKERTON, Ont., Ang. 9. — The house of Robert Young, near Kinloss, was burned yesterday. Two of his sons, aged fourteen and sixteen, perished in the flames.

STEEL STATISTICS.

Some interesting information Furnished by Manufacturers.

THE BUSINESS INCREASING.

Statistics Show a Considerable Increase in the Production of lloth Ingots and Ralls in the First Half of This Year, as Compared with Lither Half of

PHILADELPHIA, Aug. 9.—The American Iron and Steel association has received from the manufacturers the statistics of the production of Bessemer steel ingots and Bessemer steel rails in the United States in the first half of 1892. These statistics show a considerable increase in the production of both ingots and rails in the first half of this year, as compared with either half of

The following table shows the production of Bessenier steel ingots in the first half of 1892, compared with the

second half of 1891.

In the figures for the periods mentioned are included the production of ingots by the Clapp-Griffiths works, and the very small production of steel by the Roberts-Bessemer works. We also add to the table a statement of the ingots produced by the Clapp-Griffiths works alone:

Pennsylvania-Second half, 1891, net tons, 1,196,477; total, 1891, net tons, 2,294,130; first half 1892, net tons. 1,364,724.

Illinois-Second half, 1891, net tons, 440,786: total, 1891, net tons, 678,631; first half, 1892, net tons, 489,515.

Ohio-Second half, 1891, net tons, 213,-732; total, 1891, net tons, 373,706; first half, 1892, net tons, 225,060.

Other states-Second half, 1891, net tons, 225,060. Other states-Second half 1891, net tons, 187,016; total 1891, net tons, 290,-640; first half 1892, net tons, 226,700.

Total—Second half 1891, net tons, 2, 038,011; total 1891, net tons, 3,037,107; first half 1892, net tons, 2,305,999.

Clapp & Griffiths only—Second half 1891, net tons, 39,447; total 1891, net tons, 73,236; first half 1892, net tons, The following table shows the produc-

tion of Bessemer steel rails of all weights and sections, including street rails, in the first half of 1892, compared with second half of 1891. In this statement we do not include a few thousand tons of Bessemer steel rails which were rolled in iron rolling mills from purchased blooms;

Pennsylvania-Second half of 1891. net tons, 506,252; total, 1891, net tons, 946,154; first half, 1892, net tons, 530,900. Illinois-Second half, 1891, net tons, 256,894; total, 1891, net tons, 396,386; first half, 1892, net tons, 269,836.

Other states—Second half, 1891, net

tons, 23,184; total, 1891, net tons, 23,719; first half, 189', net tons, 64,392. Total—Second half, 1891, net tons,

786,330; total, 1891, net tons, 1,366,259; first half, 1892, net tons, 865.128. The increase in the production of

Bessemer steel ingots, in the first half of 1892, as commared with the second half of 1891, was over 13 per cent., while the increase in the production of Bessemer steel rails in the same period was over 10 per cent.

GRASSHOPPERS..

They Are Playing Havoc with Green Things in Marion County, Ohio.

Marion, O., Aug. 9.—Grasshoppers have virtually rained down in some parts of this city and county. At least, they have suddenly appeared in swarms, and without any legal claim or title have pre-empted truck patches, gardens and corufields, very much against the wish of legitimate owners. Constant complaint is heard of their ravages, Some gardens have been completely stripped of all green foliage, cabbage, pumpkin vines, cucninbers, peas, beans, corn and sweet potato vines have all

been eaten by the inwelcome visitors. The grasshoppers have been somewhat erratic in their movements, and not like the rain, that falls upon the just and unjust alike, but some of the saints suffer the most. Some are very large, and they light in such numbers they scare chickens away. Then they begin their work of destruction, and after stripping one garden or truck patch they move some distance to another, making an irregular tour of the country in their course.

CORONER'S VERDICT.

The Train Dispatcher and Engineer Respousible for a Wreck.

ERIE, Pa., Aug. 9.—The coroner's jury over the bodies of Engineer William Welch and Fireman Jacob Berkner, of Buffalo, killed in the wreck of the Chicago special on the Lake Shore, at Harbor creek, Friday night, rendered a ver-

dict yesterday afternoon.

They find Train Dispatcher Simon
Leet, of Buffalo, guilty of gross negligence and disobedience to orders in not advising the crew of No. 173 of the movements of No. 37 ahead, and find Engineer John M. Hart, of No. 173, guilty of carelessness and neglect of dnty in not keeping a proper lookout for danger ahead.

They also strongly censure the management of the Lake Shore for not strictly enforcing the rule requiring that a copy of extra orders governing the train ahead be given to the train immediately

following. Womau's Body Found.

JEFFERSONVILLE, Ind., Aug. 9.-The body of a well-dressed woman about forty-five years old was found on the falls yosterday. She was evidently murdered; her left temple crushed in, and her head showing other marks of terrible blows, A little money and a silver cross were found upon her. The murderer must have thrown the body in the river early in the morning.

WEATHER INDICATIONS.

For Kentucky and Tennesse, fair, except showers in western portlons; southwest winds.

CHIEF RICHARD CROKER, the big Tammany boss, predicts that Cleveland and fat cattle, averaging nearly 1,500 pounds, at 41/4 Stevenson will carry New York and sweep the country. Croker and Tammany realize, no doubt, that their own action has somewhat to do with the verification of this prediction.

REPRESENTATIVE PETTIT, who wants to regulate the universe, introduced bills in the Legislature yesterday to limit the price of water to consumers in cities of the second, third, fourth and fifth classes to 50 cents per 1,000 gallons; to require directors in corporated cemetery companies to render reports of the financial condition, and to limit the price of gas in cities of the second, third, fourth and fifth classes to \$1.50 per 1,000 feet.

"Ir has been the fashion of certain economists to ascribe the marvelous derly, but seemed to be on a boom. Some fine growth of this country for the past buildings on the way. twenty-five years wholly to our tariff, laws. Statistics of growth in all conceivable forms have been paraded, accompanied with the exclamation: 'Behold the tariff!" This is all pure exaggeration. The chief factors have been our ahundant supply of the most fertile land in the world, which we have freely given away under our homestead laws, together with the infmense tide of immigration, with all its capital of money and muscle."

Now, whose words are these? They have the real Democratic "twang," but bine cloth, chiffon; Miss Mabel Brooks, pink they were spoken by Knute Nelson, recently nominated for Governor by the Republicans of Minnesota. They are taken from a speech lie made in favor of the Mills bill. What are the Republicans coming to when they nominate "a rank free-trader" for Governor of one of their hitherto reliable strongholds. The leaven of tariff reform must be working.

IS PROTECTION ROBBERY?

To lay with one hand the power of the Government on the property of the citizen, and with the other to bestow it upon favored individuals to aid private enterprises and build up private fortunes, is none the less a robbery because it is done under the forms of law and is called taxation. This is not legislation. It is a decree under legislative forms. Nor is it taxation.

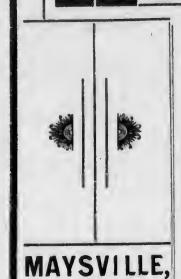

A "tax," says Webster's Dictionary, "is a rate or sum of money assessed on the person or property of a citizen by the Government for the use of the Nation or State." Taxes are burdens or charges imposed by the Legislature upon persons or property to raise money for public purposes.

We have established, we think, beyond cavil, that there can be no lawful tax

which is not laid for a public purpose. If it be said that a benefit results to the local public of a town by establishing manufactures, the same may be said of any other business or pursuit which employs capital or labor. The merchant, the mechanic, the innkeeper, the banker, the builder, the steamboat owner, are equally promoters of the public good, and equally deserving the aid of the citizens by forced contributions. No line can be drawn in favor of the manufacturer which would not open the coffers of the public treasury to the importunities of two-thirds of the business men of the city or town.-Opinlon of the U.S. Supreme To get the true and genuine article, look Court, 20 Wallace, 657.

Mrs. V. O. Morford and son left this morning for Carlisle to see her sister, Mrs. Birdie Day, who is dangerously ill.

PAYNTER.

Flattering Compliments Paid Our Congressman by the Press.

"His Career Has Been a Clean One." "A Man of the People"-Our Next Representative.

Flemingsburg Times Democrat: "The career of Mr. Paynter has been a clean one. No private jobs or personal scandals have tainted his good name or disgraced his constituents, and it is indeed a compliment to him that he should have no opposition for a third term in this district, which has so many ambitious statesmen. We feel peculiar pride in Mr. Paynter's success, as we were one of the first to suggest his candidacy originally, and we have never had cause to regret it."

Cynthiana Democrat: "Mr. Paynter has made an honorable name in the House and has rendered his constituents and the country distinguished service. As a recognition of his ability and strong claims upon the party for renomination no candidate has been announced in opposition, and it is very probable that none will appear. Mr. Paynter has a host of friends in Harrison who will loyally champion his cause."

Cynthiana Times: "We in this issue of the Times formally and authorizedly announce the respective candidacies of the Hon. Thos. H. Paynter, candidate for reelection to Congress, and that of the Hon. J. T. Simon, candidate for his party's nomination for Commonwealth's Attorney in this Judicial District. Both of the · above gentlemanly aspirants, in addition to being perfectly well fitted to fill the positions respectively sought by them, are very prominent and popular and the result will but furnish our people with public conservators of whom they may well feel proud."

Owingsville Outlook: "Mr. Paynter is a man of the people. He has, unaided by others, toiled his way upward, by industry and perseverance until he has been twice honored by the people sending him to the halls of Congress. He has made at once a conservative and yet an aggressive member, always alert as to the interest of his people. The indications now are that he will have no opposition for resent the Ninth District in Congress. If he does the people may rest assured that their interest will not suffer in the hands of Mr. Paynter."

Owingsville Opinion: "He is now servefficient Representative. * * * Mr. Paynter's popularity in portions of the district that would most likely develop opposition to his nomination is remarkable, and he will likely win at Carlisle on September 6th without an opposing candidate, and be elected in November by a greatly increased majority."

Sharpsburg World-"Sofar as we know, Mr. Paynter has no opposition for the nomination, and, indeed, opposition would be useless, for the people of this Congressional District are perfectly satisthe fied with excellent and able manner in which he has fulfilled his duties and they honest finder knowing the loser will cerwill show their appreciation of his services by again nominating and electing

Professer William Hartmann.

Professor William Hartmann, of Reading, Pa., who is visiting his cousin, Mrs. John Haucke, of the Sixth ward, is a musical composer of international reputation. He is the founder of the Allgemeiner Saengerband of Pennsylvania, and the Harrisburg Telegram in a recent notice of the organization of this society says of the Professor:

Professor Hartman was born March 5, 1864, In Cassel, Hesse, Germany, After his graduation from college, he completed his musical education at the Seminary of Homberg. In 1885, he came to this country and made Baltimore his first place of residence. In that city he acted as organist for several churches. Eventually he assumed the leadership of seveu different German singing societies. During the summer of 1890, while at Lancaster, on the oceasion of the great singing festival held there, he became acquainted with the members of the Ifarmonic-Mænnerchor, of Reading. Becoming aware of his desire to live in a city smaller thau Baltimore, the Harmonie-Mænnerehor offered him the leadership of their society. Professor Hartmanu aceepted the position and came to Reading July 1890. Shortly after his removal here he became teacher of German lu both High schools, aud ultimately Superintendent of Musical Justine tion in Reading public schools. Professor Hartmann, by his genius, affability, indefatigable ludustry and enthusiasm has won a warm place in the hearts of the singing societies of the country. His success is an illustration of what talent, with ceaseless and eheerful application, cau

"Fires don't bother the busy man," says an exchange. They don't bother Balleuger, the jeweler, because he is kept busy waiting on his many customers. His big trade is easily accounted for. His stock is the best and most complete, and he guarantees his goods to be just as represented.

YESTERDAY the BULLETIN published an item based upon an article in the Louisville Times stating that Dr. Richart who killed John W. Samuels, of Mt. Sterling, had become a lunatic and was confined in an asylum in Missouri. The item turns out to be like a great many others that find their way into newspapers-not true. Richart's friends say he is rapidly acquiring a large practice at his new home in Missouri.

Ir there are any sprinters hereabouts, they should go into training for that foot race to take place on the third day of the Maysville fair. The prize is a \$20 gold WANTED-30,000 bushels of Lancaster field of starters. The purse is given by will pay near Cincinnati prices, if dry, chants, and it is said there is a champion chants, and it is said there is a champion of Hord, of Helena. The sprinter up that way who is coming down entertained by Miss Oli to give the boys a few pointers on running. ingsburg, last evening.

NARROWLY AVERTED.

A. M. CAMPBELL, real-estate, loans and A Big Wreck on the C. and O. at Lexington Street Crossing Monday Afternoon.

> A big wreck on the C. and O. was nar rowly averted yesterday afternoon at 4 o'elock at the Lexington street crossing, this city. There was a collision, and one engine was disabled and several box cars were considerably damaged. The crews of the two trains are congratulating themsclves that they got off as well as they

> Freight train No. 72 drawn by engine No. 86 was passing east. L. and N. engine No. 453, in charge of the yard crew at this point, had been up in the East End and was returning. The engine was running backwards pushing three box cars and pulling two more.

> A short distance east of Lexington street, the yard crew discovered the other train rounding the curve at Poplar street. Both engines were reversed. The yard crew set their brakes, and their train was brought almost to a stop just at the crossing.

> The eastbound train was running too fast to be stopped in so short a distance and it soon crashed into the cars of the other train. The engine plowed nearly half way through the first car, lifting it into the air. The yard engine and five ears were shoved along the track nearly a

The eastbound engine and several cars were considerably damaged. The crews escaped unharmed. Most of them jumped before the collision occurred. The accident did not interfere much with traffic, as trains were enabled to pass the wreck Ar Cynthiana, yesterday, Joshua by taking the siding, and the main track was cleared in about two hours.

The statement is made that the engineer and fireman of the eastbound were flirting with some girls at the corner of Poplar, and it is said there would, likely, have been no collision had they been attending to their duties.

PURELY PERSONAL.

Miss Jennie Wood has returned from Glen Springs.

Miss Anna Means is visiting relatives near Concord.

THE CELEBRATED JOHN VAN RANGES.

AMERICA'S NAME DAY.

A Suggestion That the World's Fair Be

Inaugurated on May 5. ALBANY, Ang. 9 .- John Boyd Thatcher, commissioner from New York state to the world's Columbian exposition, said Sunday night that he thought a tribute might be appropriately paid to the memory of Americus Vespucius by opening the exposition on the 5th day of May, 1893. On the 5th day of May, in the year 1507, there was printed a little book in St. Die, Lorraine, which first suggested that the newly discovered quarta pars orbis should be given the name of America, and thereupon deliberately and formally hantized the liberately and formally baptized the fourth part of the world "America," after, the Florentine discoverer, Americus Vespucius.

This book was printed on the 7th of the Kalends of May, 1507 (April 25), which is equivalent to the 5th day of May by the Gregorian calendar. This day, the 5th of May, is the christening or baptismal day of America. The 5th day of May also falls on Friday, which is another singular coincidence, as it was Friday Columbus set, sail, from Pales Friday Columbus set sail from Palos, Friday he first saw the land of the New World, Friday he first reached Palos on his return, and the 400th anniversary of the discovery falls on Friday.

STORM IN MINNESOTA.

Great Destruction Done In the South-

western Part of the State. MARSHALL, Minn., Aug. 9.—The worst tornado and hailstorm ever known in northwestern Minnesota occurred between 4 and 5 o'clock yesterday mornlng. The storm covered portions of Lincoln and Yellow Medicine counties and the northern half of Lyon county. Present reports indicate a loss in Lyon county of no less than \$500,000.

Near Cummings the Icelandic Lutheran church was picked up and thoroughly demolished. Several residences, barns and small buildings were destroyed and innumerable trees were blown down. Nearly all the glass on the north side of most of the buildings in town were smashed.

Several l'eopte Missing.

CANBY, Minn., Aug. 9.—A terrific storm of wind and hail prevailed here Sunday night. Crops were destroyed in a strip five miles wide. The Canby Gun club was overtaken on the prairie and badly beaten by hail. Some of the members are missing.

State Board of Equalization.

Indianapolis, Ang. 9. — The state coard of equalization met yesterday after three days' adjournment and began hearing statements from representatives of railroads. Ben L. Smith appeared for the Cincinnati, Hamilton and Indianapolis and asked that a reduction be made on the line or that other roads be raised so that the taxes might be equal. He contended that last year's assessment of \$32,000 per mile was unfair when the Panhandle and other main lines had been assessed on a valuation of \$26,000. The Ohio and Mississippi road was represented by Judge Gardner, of Daviess county, who also asked a re-

Limited to Fifty Millions Capital. NEW HAVEN, Aug. 9.—At a recent meeting of the representatives of the United States Rubber company, which includes nine of the largest rubber boot feet was exactly that which had been and shoe manufacturers in the country, and was organized under the New Jerhis head. Looking his pseudo accuser DR. PARIS WHEELER, laws a few months ago, it was docided that the combination shall go into effect Nov. 1. Charles L. Johnson, secretary and treasurer of the L. Candee Company, of this city, is to have charge of all the sales. The capital stock of the trust is limited at \$50,000,000 and it is expected that all the principal rubber manufacturers will join the combine before Nov. 1 fore Nov. 1.

Smugglers Suppressed.

QUEBEC, Ang. 9.—As a result of the energetic measures that have been taken lately by the government to suppress smuggling in the St. Lawrence, it is said that the ring of capitalists that has been furnishing the means for carrying on the illegal traffic has ceased to make advances. This is likely to have the effect to paralyze the trade so far as it was carried on by organized syndientes, but individuals will still have to be looked after. The Dominion cruiser. Constance, steamed down the river yesterday with a small detachment of B battery on board.

Lineman Institutly Killed.

Port Huron, Mich., Ang. 9.—Newton Tallbot, a lineman employed by the City Electric company, was almost instantly killed yesterday while working on the trolley wire. In some way he came in contact with a guy wire. He was rescued at once, but did not live. Considerable surprise is expressed at his death as the current was only 500 volts.

Ended His Own Sentence.

CONCORD, N. H., Aug. 9.—John Donnolly, who was sentenced to thirty years imprisonment last year for killing a prominent citizen of Berlin Falls, yesterday committed suicide in his cell in state prison by cutting his throat with his case knife.

Base Ball.

At Philadelphia-Philadelphia 4, New At Baltimore-Baltimore 2, Brooklyn 8. At Washington-Washington 0, Bos-

ton 7.

At Chicago—Chicago 12, Cinclunati 8, At Pittsburg—Pittsburg 6, Cleveland 3.

Quarantine Removed.

St. Paul, Aug. 9.—A dispatch from Winnipeg says the governor of North Dakota has withdrawn his proclamation placing quarantlne ou the Canadiau Pacific, Northern Pacific and Great Northern railroads at the boundary line, owing to the outbreak of smallpox. Trains will resume running as usual hereafter. No additional cases of the disease are reported, and those afflicted will recover.

Row Among Italians.

WILKESBARRE, Pa., Aug. 9.—Last evening there was a quarrel between railroad men and Italians at Coxton, three miles from Pittston. The party of Italians drew knives and slashed right and left. Harry Beillette and Robert Williams were fatally stabbed and John Jones was severely injured.

A LEGAL INCIDENT.

A TRAGIC ENDING OF AN UNJUST CRIMINAL CONVICTION.

What Strong Circumstantial Evidence Dld in the Case of a Trusted Clerk. He Died When He Learned That He Was Innocent Before the Law.

The following thrilling story comes from the lips of a well known member

A very bad and dishonest failure had occurred, in which a certain trusted clerk seemed to have been guilty of the larger share of the crimc. He, with his employer, was arrested and charged with the crime. The clerk stontly protested his innocence and denied all knowledge of the fraud or any connection with his employer.

However, there was a chain of circumstantial evidence woven around him which was exceptionally strong and which his counsel could not break down, although he was firmly convinced himself of his innocence. The clerk was convicted and sent to jail for a term of

After being confined in prison for about a year the poor fellow's mind begau to weaken, and finally he broke down completely. He was taken from prison and transferred to a hospital for the insane. All the time the clerk continued to protest his innocence. After he had been confined in the hospital three or four years, certain facts in the failure were elicited which clearly proved that the unfortunate clerk was entirely innocent of having committed any crime.

Of course steps were immediately taken to secure the pardon of the man; the facts were laid before the pardon board at their next meeting and an order was given for his immediate rcleasc.

It now became the delicate duty of the counsel in the case to break the happy intelligence to the pardoned clerk. But the question that confronted them was what could be done to restore his reason, and would be believe the news? If his mind could not be restored ho could not be taken away. What could be done? After a consultation between the connsel on both sides of the case it was agreed to call upon the poor clerk and make an attempt to rouse him from the apathy and lethargy into which he had fallen. This they decided to do by accusing him again of the theft of tho Whenever this subject was broached he always roused himself and became greatly animated, always vigorously denying it.

While his mind was aroused by this stimulus it had been decided that one of the counsel was to announce that tho matter had been fully investigated and his innocence fully established. The parties to this strango drama assembled in the room of the stricken man. He sat silent and immovable, with his head

in his hands. As the old and ever rankling charge straight in the eye he repeated, in a lond tone of voice, with a rising inflection and with great energy, "It is a lie."

The critical moment had come. The lawyer who had prosecuted him and secured his incurceration then stepped up to him and said: "You are right. It is a lie, and you stand before the community a vindicated man. I have the order for L. W. GALBRAITH, your release in my pocket."

Then the lawyers stood off to watch the effect, hoping that the joy at the prospect of release and vindication would in his right mind. But no sign of joy overspread the man's features. His face have the effect of putting the clerk again bore its usual stolid expression. It seemed to have no apparent effect upon

The clerk turned his face toward the speaker, as if he did not understand him. Then his head feli forward, and the runn was precipitated upon the floor at the feet of the lawyers. A single glance sufficed. He was dead .- Green Bag.

One Year's Sale of Stamps.

The number of postage stamps used in a year is something enormous. For Instance, the ordinary postal revenue for the year ending June 30, 1891, exclusive of the money order business, was \$65,-065,293.87. Of this \$41,432,129.50 came from letter postage. The bulk of this is of course in two cent stamps, and it is safe to put the whole number of this denomination used at more than two blllions per annum -Kato Field's Wash. ington.

Death of William White.

LOUISVILLE, Aug. 9.—William White, who for thirty-nine years held the office of grand secretary of the Odd Fellows, died here yesterday of heart disease. Old age, however, hastened the end. During the prevalence of la grippe last year he contracted the malady. He stood the attack very well, but it left him with a valvular trouble of the heart which hastened his death. He was in every other respect a strong man, although he had reached the age of seventy-six years.

A Little Premature.

Washington, Aug. 9.— Secretary Foster, of the state department, said yesterday morning that the Ottawa dispatch, announcing that discriminating rebates of vessels passing through the Welland canal had been removed, was premature. The matter was in the course of adjustment and would no doubt be satisfactorily settled.

To a Higher Court. Asheville, N. C., Aug. 9.—William M. Shelton, who has been on trial at Marshall, Madison county, for the cold-plooded murder of Grant Tweed, dled n jail Saturday afternoon of heart dis-
